Summary: Python Developer with hands-on experience in data analytics, machine learning automation, and real-time reporting dashboards. Proficient in Python, SQL, Power BI, and Tableau for data visualization and analysis.

TECHNICAL SKILLS

- **Programming:** Python, SQL, C
- **Data Analytics & Visualization:** Power BI, Tableau, Pandas, NumPy, Matplotlib, Seaborn, Excel
- **Frontend:** HTML, CSS, Bootstrap, JavaScript
- **Frameworks & Tools:** Django, Git, GitHub, SQL Server, Postman
- **Concepts:** Data Analysis, Data Visualization, Machine Learning Basics, Dashboard Development

KEY SKILLS

- Data Analytics • Python Programming • SQL Querying • Power BI Dashboard Development
- Tableau Data Visualization • Data Cleaning & Transformation • Azure ETL (Basics) • Machine Learning Fundamentals

PROFESSIONAL EXPERIENCE

ML & Python Engineer

India

Automation Technix

Jan 2026 – Present

- Developed automation and machine learning based data solutions for industrial plant monitoring.
- Designed backend Python scripts for collecting, processing, and analyzing plant sensor data.
- Built real-time reporting dashboards using Python data visualization tools (Matplotlib, Seaborn).
- Worked with SQL databases to store and retrieve operational plant data.
- Automated data pipelines to improve efficiency and reduce manual monitoring effort.

PROJECTS

- **EcoDhara Live Reporting System (Industrial Data Analytics)** – Developed a live industrial reporting system for monitoring plant operations and process parameters. Built interactive data visualization dashboards using bar charts, line charts, and multiple analytical graphs. Implemented data processing pipelines in Python using Pandas and NumPy. Enabled plant operators to understand operational data through intuitive graphical dashboards. Integrated SQL database for storing real-time plant data and generating automated reports.
- **Stakeholder Insights and Performance Dashboard (Tableau)** – Built an interactive Tableau dashboard with KPIs, charts, and filters to analyze premiums, profitability, and asset distribution. Enabled stakeholders to make informed, data-driven decisions through clear visual storytelling and drill-down capabilities. (GitHub)
- **Fitness Dashboard (Power BI)** – Designed an interactive Power BI dashboard to track memberships, financial health, and fitness metrics including BMI, BMR, and TDEE. Delivered actionable insights to support business growth and client engagement through dynamic visuals and KPI cards. (GitHub)

EDUCATION

Rajarshi Shahu College of Engineering

Buldhana, India

BE in Computer Science & Engineering (6.8/10)

2021 – 2025

- Relevant Coursework: Data Structures, Machine Learning, Database Systems

M.F. Vidyalyaya & Jr College

Sindhkhed Raja, India

HSC - Science (65%)

2020 – 2021

Shivaji Highschool

Deulgaon Raja, India

SSC (56%)

2018 – 2019

CERTIFICATIONS

- Python Full Stack Development + Data Analyst – Itpreneur (2025)
- Introduction to Generative AI – Google Cloud (Coursera, 2024)
- Data Analytics & Visualisation – Tata Group (Forage, 2024)
- Introduction to Cloud Computing – IBM (Coursera, 2024)

ACHIEVEMENTS

- Led a team of 5 as Project Coordinator for a college competition.
- Organised a college fest as Student Council President, managing a budget and coordinating 10+ events.

LANGUAGES

- English, Hindi, Marathi
